### Dr. Huisheng Xie DVM, PhD

Founder and President of Chi University

Dr. Xie has 42 years clinical, teaching and research experience in veterinary acupuncture and TCVM. He has trained over 12,000 veterinarians to practice TCVM worldwide. Dr. Xie's education includes advanced training in veterinary medicine, veterinary acupuncture, and human acupuncture. Dr. Xie has authored 20 books and over 100 peer-reviewed papers. His textbooks, including *Xie's Veterinary Herbology*, *Xie's Veterinary Acupuncture*, and *Traditional Chinese Veterinary Medicine-Fundamental Principles* have been used for TCVM training programs around the world. Dr. Xie continues to teach and develop educational courses and programs at Chi University, served as a full clinical professor at University of Florida's College of Veterinary Medicine, and is an honorary professor at China Agricultural University, South China Agricultural University and China Southwest University.

### Dr. Akshay Shah DVM, CVA

Director of Chi India

Dr. Akshay Shah has been passionate about animals since childhood, inspired by growing up with pets and his parents' medical careers. A graduate of Bombay Veterinary College (2013) with a master's in Veterinary Pathology, he founded his clinic with a focus on holistic healing after witnessing the adverse effects of conventional medicines for chronic diseases. Dr. Shah is certified in Medical Acupuncture (IASA, 2013), Veterinary Acupuncture (Chi University, 2018), Veterinary Homeopathy (2019), and Bach Flower Therapy. He integrates these holistic approaches with conventional medicine to treat animals in a gentle, effective manner. He is set to lead Chi University's Veterinary Acupuncture classes in India as the course director, furthering his mission to promote integrative veterinary medicine.

Chi's faculty expertly guide you through the learning process during the course and provide free lifetime email case consultation after you graduate.

## CVA PROGRAM OVERVIEW

The course begins with an overview of fundamental aspects of Chinese Medicine, including *Yin-Yang* and Five Elements theory, which serve as a foundation for case diagnoses and treatment presented later in the class. A variety of acupuncture techniques are taught, including electro-acupuncture, aqua-acupuncture, moxibustion, etc. in addition to conventional "dry" needling. In acupoint labs, students learn acupuncture points on live dogs.

The course is presented in 2 online sessions and 3 hybrid sessions. Each hybrid session includes two segments: online & on-site. Online segments are comprised of lectures and case demos that students can stream at their own convenience. On-site segments give students the opportunity to learn acupuncture points on live animals in small acupoint lab groups of four to six students per instructor. The on-site segment of this course is located in Mumbai, India.
