Dr. Huisheng Xie

BS-vet med, MS-vet acupuncture, PhD
Professor and founder of Chi University

Dr. Xie has 43 years of clinical, teaching, and research experience in veterinary acupuncture and Traditional Chinese Veterinary Medicine (TCVM). He has been invited to deliver lectures for more than 200 veterinary organizations and universities in over 30 countries, including WSAVA, AVMA, the Western Veterinary Conference, VMX/NAVC, and AAEP. He has trained over 12,000 veterinarians to practice TCVM worldwide. Dr. Xie is also the author of over 140 peer-reviewed papers, and 35 textbooks including *Xie's Veterinary Herbology* and *Xie's Veterinary Acupuncture*, which have been used for TCVM training courses around the world. He built the longest standing Veterinary Medical School's acupuncture service in the US in 1999 and acupuncture internship program in 2003 and served as a clinical professor at the University of Florida College of Veterinary Medicine until 2021. He is also an honorary professor at China Agricultural University, South China Agricultural University, and Southwest University. Dr. Xie continues to teach and develop educational courses and programs at Chi University.

Dr. Akshay Shah DVM, CVA

Director of Chi India

Dr. Akshay Shah has been passionate about animals since childhood, inspired by growing up with pets and his parents' medical careers. A graduate of Bombay Veterinary College (2013) with a master's in Veterinary Pathology, he founded his clinic with a focus on holistic healing after witnessing the adverse effects of conventional medicines for chronic diseases.

Dr. Shah is certified in Medical Acupuncture (IASA, 2013), Veterinary Acupuncture (Chi University, 2018), Veterinary Homeopathy (2019), and Bach Flower Therapy. He integrates these holistic approaches with conventional medicine to treat animals in a gentle, effective manner.

He is set to lead Chi University's Veterinary Acupuncture classes in India as the course director, furthering his mission to promote integrative veterinary medicine.

Chi's faculty expertly guide you through the learning process during the course and provide free lifetime email case consultation after you graduate.

CVA PROGRAM OVERVIEW

The course begins with an overview of fundamental aspects of Chinese Medicine, including *Yin-Yang* and Five Elements theory, which serve as a foundation for case diagnoses and treatment presented later in the class. A variety of acupuncture techniques are taught, including electro-acupuncture, aqua-acupuncture, moxibustion, etc. in addition to conventional "dry" needling. In acupoint labs, students learn acupuncture points on live dogs.

The course is presented in 2 online sessions and 3 hybrid sessions. Each hybrid session includes two segments: online & on-site. Online segments are comprised of lectures and case demos that students can stream at their own convenience. On-site segments give students the opportunity to learn acupuncture points on live animals in small acupoint lab groups of four to six students per instructor. The on-site segment of this course is located in Mumbai, India.
