The Process

Whether you are attempting the Certified Digital Forensics Professional certification exam on your own or after having completed our approved learning path.

Shop Certification Vouchers

To earn the eCDFP Certification, follow these steps:

01 **Purchase a certification exam voucher**

Purchase an exam voucher to start the certification process. Login to the certification area to manage the exam and any other materials related to the certification process.

02 **Begin the certification process**

Regular vouchers expire 180 days after purchase. You must take your exam within that time, and if you do not pass, complete the included free retake within 14 days. Both attempts must be submitted before the expiration date. Your exam voucher expiration date is always available in your Certifications Dashboard.

03 **Take your exam**

Once you click on the "Begin certification process" button, you will receive an email with instructions regarding the scope of the engagement. This letter will contain everything you need to know to take your exam.

04 **Receive your results**

To be awarded the certification, you need to score a 76.7% or above. Once you submit your exam, it will be automatically graded, and you will receive your results immediately. Should you fail the first attempt, you will then have one free attempt to re-take the certification.

The eCDFP certification is valid for three years from the date it is awarded. Stay current with your skills and maintain your credential through flexible renewal options designed to fit your schedule.
